decrease in population
from 1971 to 2011

A network of **17**
schools as single
purchasing body

189
students per school
out of 329 in Sicily

52%
of the energy needs
by renewable sources

MAIN RECOMMENDATIONS

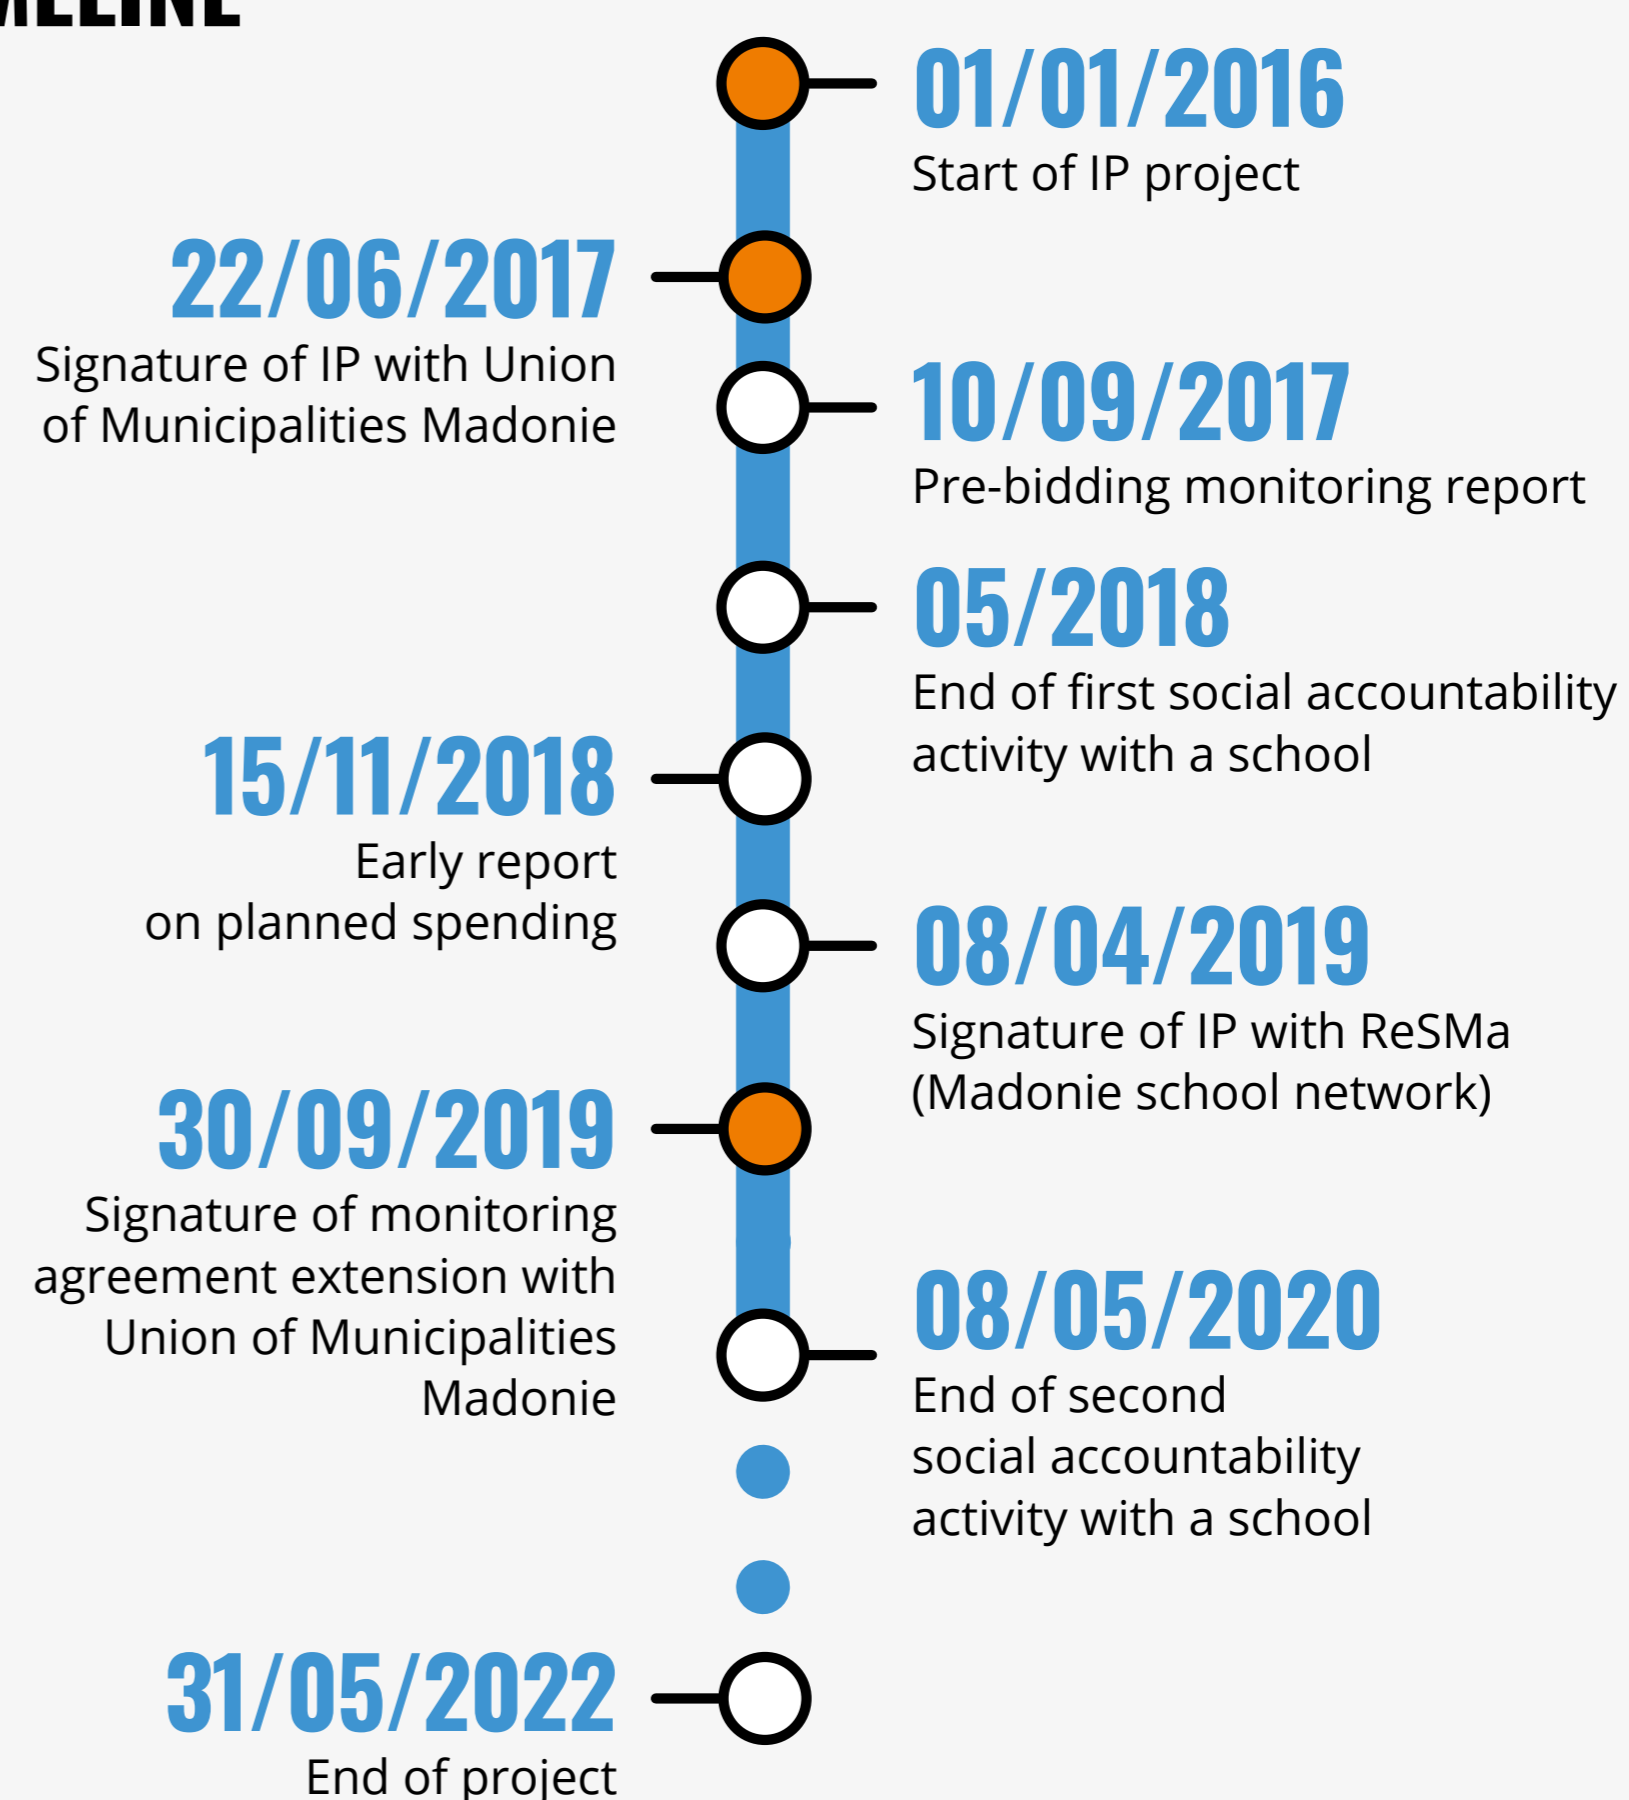

- Improve the modalities of publication of documents online to strengthen the transparency of the Contracting Authority (CA). Amapola provided inputs on how to make the institutional website more intuitive and finding documents easier. The recommendation was taken on board by the CA.
- Organize information and awareness-raising events to involve affected communities. The recommendation was taken on board by the CA.
- Communicate in a timely manner unforeseen delays due to bureaucratic steps or other reasons. The recommendation was taken on board by the CA.
