BACKGROUND

Transparency International (TI) is the global civil society organisation leading the fight against corruption. Through more than 100 chapters worldwide and an international secretariat in Berlin, Germany, TI raises awareness of the damaging effects of corruption and works with partners in government, business, and civil society to develop and implement effective measures to tackle it.

Through the TI Indo-Pacific Partnership for Strong, Transparent, Responsive & Open Networks for Good Governance (TI IPP STRONGG) Phase II, TI aims to contribute to reduced corruption in the region by empowering a resilient and independent civil society voice and network that can mobilise action in support of increased accountability of national and regional public and private institutions.

As a civil society organisation, TI plays a key role in empowering people to be informed, aware, and equipped to act against corruption. The IPP STRONGG Phase II programme focuses on leveraging TI’s added value as an anti-corruption movement with national, regional and global presence, to strengthen civil society’s ability to influence and actively participate in efforts to strengthen good governance in the Indo-Pacific region towards:

- Informed, engaged and local demand for accountability
- Inclusive, responsive, and accountable governance frameworks
- Resilient, independent and active civil society anti-corruption voice across the Indo-Pacific region

Acknowledging the inherent diversity within the Indo-Pacific, the IPP STRONGG Phase II programme promotes a context-appropriate approach in each country and does not intend to address all objectives uniformly throughout the region. As a result, national chapters will consider the most crucial areas to address over the next five years and strategize accordingly to achieve the desired results, ensuring that programme activities are shaped by local insights. During the initial planning phase of the programme, chapters have developed draft national project proposals for multi-year initiatives that are pertinent to their context and contribute to the overall programme structure. The draft national proposals were then assessed by TI-S based on a set of criteria to ensure alignment with the programme’s objectives while considering the unique regional and national contexts. The Transparency International Secretariat (TI-S) in Berlin is now seeking a consultant to support up to three Indo-Pacific chapters in revising and finalising their national project proposals under IPP STRONGG Phase II.
