BACKGROUND

Transparency International (TI) is the global civil society organisation leading the fight against corruption. Through more than 100 chapters worldwide and an international secretariat in Berlin, Germany, TI raises awareness of the damaging effects of corruption and works with partners in government, business, and civil society to develop and implement effective measures to tackle it.

Since 2019, TI has held a Political Integrity Bootcamp with national chapters from across the TI Movement in the Europe and Central Asian region. The objective of the Political Integrity Bootcamps is to support strengthening capacities in using hand-on prevention tools to prevent political corruption and advocate for democratic reform in OSCE countries.

The 2022 Bootcamp 'Lobbying Transparency: Protecting Democratic Politics Against New Forms of Undue Influence' will focus on effective advocacy for transparent regulations on lobbying and undue influence in decision making. The Bootcamp will focus on three key areas:

- (i) An overview of new challenges of undue influence and the enforcement of lobbying regulations
- (ii) Exchange with oversight and regulatory agencies on best practices and lessons learnt
- (iii) Support national chapters in developing and discussing messaging to effectively call on governments to introduce transparent and effective regulations on lobbying

The Transparency International Secretariat (TI-S) in Berlin is seeking an advocacy specialist with a background in political integrity, to design and facilitate a one-day in-person (Warsaw) workshop with national chapters from the TI Movement. The workshop should focus on practical planning for advocating and designing key messaging for transparent lobbying regulations to combat undue influence at the national and regional level.

Based on the needs of the participants, the session should be interactive, and the candidate should bring innovative ideas to ensure the session is engaging and relevant to the participants who are experienced advocates, including facilitating the group to work collaboratively. The workshop should include preparatory guidance to participants and focus on a participatory discussion on analysing channels of influence, challenges, and key messaging.

OBJECTIVES

- Design and facilitate a 1-day workshop to lead and support TI national chapters transfer lobbying regulations into their national advocacy
- Facilitate 0.5-day session exchanging on lobbying regulations and regional threats with country experts, oversight agencies and national chapters (prior to the 1-day workshop).
- Participants begin designing recommendations and key messaging to update and better enforce lobbying regulations against new risks of undue influence in their own country context.
